

EXPRESSION OF INTEREST

SOUTHERN FORESTS CARBON PILOT

The Southern Forests Food Council invites producers to participate in a pilot program to identify and trial suitable carbon tools adapted to horticulture and livestock operations in the Southern Forests region.

WHY PARTICIPATE?

1. TAILORED GHG ACCOUNTS

Calculate and gain valuable insights into your GHG emissions and carbon footprint.

2. INSIGHTS, ADVICE & TOOLS

Gain insights into how factors like your budget, the season, climate, herd size, and crop type influence your carbon emissions.

3.

REGIONAL IMPACT

Contribute to the development of region-wide carbon management tools.

4.

COLLABORATION

Share knowledge about innovative farming practices relevant to our region while building resilience to climate challenges.
